Want to be more actively involved in our industry? Join an ACA committee.

Economic Development Committee (EDC) - A proactive entity; assisting key economic developers create, retain and expand businesses in Arizona. Through communications with local economic developers, the EDC assists in providing conceptual cost estimates and help explain advantages in utilizing alternative construction delivery methods. In addition, the committee keeps participants informed of leading developments from across the state.

Legislative/Governmental Affairs Committee - Your legislative watchdog. This committee develops and maintains productive relationships with elected and appointed governmental officials and agencies to further the goals of the association. The committee reports the progress of proposed legislation, which directly affects ACA members and the construction industry as a whole to the ACA Board.

This safety program includes educational seminars, Toolbox Talks, job-site evaluations, safety equipment resources, and OSHA regulations, monitoring and updates.

Membership Committee - Membership is the lifeblood of all associations and ACA is no exception. In order to remain effective, ACA needs the strength members provide. To that end, new member recruitment is an ongoing effort. The membership committee is responsible for planning and executing membership drives to serve this purpose. The committee also functions as a liaison to existing members regarding their needs and wants for the association. This committee assures that you will receive the kinds of information and activities most beneficial for assisting you in making your business a success.
